- ▼ Management of infrastructures and systems
- ▼ Enterprise Resource Planning (ERP)
- ▼ Technological IT

Axel,
Technical
Manager

“Five years ago, I decided to join AUSY as a Data Warehouse

Architect for its human approach of the IT consultancy. The Professional Development Model gives the employee the opportunity to grow and develop his competences.

In the mean time AUSY decided to develop the project approach involving me as a project leader for different development projects and as the Technical Manager Assistant.

Beginning 2006, I was promoted as Technical Manager for Belgium and Luxemburg, in charge of answering to the technical part of call for tenders, supporting the sales team and ensuring projects follow-up.”

AUSY Benelux, implantations

Develop your talent is our main concern

At AUSY, the career management relies on values such as trust, honesty, proximity and ethics

Our commitment

- ▼ Strengthen your competences by involving you in high end projects
- ▼ Encourage your career development thanks to a close link with your manager
- ▼ Follow-up your career with a personal development model
- ▼ Guide your evolution and advice you in your decisions

During the recruitment process, all the candidates have to pass through both technical and human assessment according to AUSY quality standards

● **Trainings** are regularly organized to follow the evolution of the ICT market as well as to increase the quality of the service we deliver to our customer.

● **Each technical domain** promoted by AUSY is supported by a Competence Centre animated by a technical expert who will help each consultant to quickly get solutions to technical problems.

These technical communities periodically organize workshops to share know-how and experiences.

● **The technical management** is in charge of recommending new technologies AUSY should address, of responding to call for tenders, of delivering quality solutions to our customers and of supervising all the running projects.

● **AUSY works in close partnership** with software vendors to keep his technological level of expertise as high as possible. AUSY is Microsoft Gold Certified Partner and Oracle Certified Partner.

David, consultant

“To my mind, dynamism, competence, team spirit and trust are four mandatory characteristics to depict a Company. At AUSY, I met competent people who proposed me a career plan to develop my talent far behind my skills. This is why I chose AUSY and two years later, I am convinced I made the right choice.”

Eric, Business Unit Manager

“I started at AUSY Belgium as Account Manager dedicated to Corporate Companies located in Brussels. On the basis of my successful commercial achievements, AUSY offered me the opportunity to strengthen and further develop my entrepreneurial spirit by becoming Business Unit Manager. I therefore received trainings and personal coaching from the whole Management Team to succeed in this demanding challenge which implies commercial, HR and financial responsibility for the 40 consultants of the Brussels Business Unit. In conclusion, I can say that AUSY is the right company to boost your commercial career!”

We are actively looking for talented collaborators
